Remarks:

Score is computed by multiplying the converted points (Level 2 = 2 points, Level 3 = 3 points, Level 4 = 4 points, Level 5/5\*/5\*\* = 5/6/7 points) of each of the 4 Core subjects and 1 Elective subject in HKDSE by the respective subject weighting as stipulated by the programme concerned, and then adding the products of each of the 5 subjects together. The admission score is normally calculated based on 4 core subjects and 1 elective subject for all programmes except JSSU55, of which the admission score is calculated based on the best 5 subjects.

All weighted scores are calculated based on programme-specific formulae, which may assign a heavier weighting to certain subjects that the programmes have particular requirements. The weighted admission scores have taken heavier subject weighting, if any, into account. The scores and subject weighting may vary from year to year and should only be used as reference.

Unless otherwise stated in the Programme-specific subject requirements, HKDSE Category B subjects (Applied Learning) with attainment at "Attained" or above; or Category C subjects (Other Languages) with attainment at grade E or above can be considered as elective subjects. Also, Mathematics Extended Part (i.e. Module 1 (Calculus and Statistics) / Module 2 (Algebra and Calculus)) can be counted as an elective subject. If applicants have taken both Module 1 and Module 2, only the module with best result will be taken into consideration.

\* Students with Alternative Qualifications in Chinese Language (ACL) are not included in the calculation of score.
